
Mod TP menu Update

Posted by sikumbang - 2008/12/09 13:51

We have updated the Mod TPMenu with bug fixes :

Changelog in 2.0.2.1 (J 1.0.xx version)

- Fixing js confliction in menu2.js.php

Changelog in 2.0.3 (J 1.5 version)

- Fixing js syntax error issue in menu2.js.php and several minor issues
- Fixing bug on SEF home link

You can download the updates from here

How to upgrade old mod_tpmenu

Simply extract the new module zip file, then upload them into your server, replace the old files (overwrite them)
