
more than one kwick menu

Posted by Lisa Clark - 2008/01/08 20:06

is it possible to have more than one kwick menu

i have tried but it isnt working

thanks

Lisa

http://www.templateplazza.com/component/option,com_fireboard/Itemid,80/func,view/id,1807/catid,25/

found this post but it didnt work. i dont see the second menu.

thanks

Lisa

Dear Lisa, thanks for sharing.

until know, it's still not posible to working properly, hope that we can solve that.

but, i think that you still get it with copy and change files and folder (xml, php and folder). and you must be do several adaptation code with the new name.

or read this

kwick loaded twice, possible?

Good Luck

Best Regards

found this post but it didnt work. i dont see the second menu.

thanks

Lisa

please you need to insert this code into HEAD section of your template index.php

Regards

Hello Lisa,
do you use its with kwock_menu folder or another name?
Regards
