Hello clint,  
please post this trouble to Template Support sub Forum

Regards  
Rony

Just to share as it isnt any kind of template secret:

Open your index.php file then find the mosMainBody and insert it between if clauses so it become something like:

```
if ($option != "com_frontpage") {  
mosMainBody(); }
```

It will not show any text in the frontpage!

Regards,

Hello Ric,  
it's just for Joomla 1.0.x  
not for Joomla 1.5

if anyone to know about Joomla 1.5, just see at Template FAQ

Regards  
Rony

Rony,

Anyway this is a valid addition to someone who wants to do that in J! 1.0.1X! :)
