Hi,

Did you have an suggestion to an feature you will like to see in the next version...

Let us know... add it by reply to this theard..

Regards,

=====

Hey,

Any way we can get some fancy tooltips working as J!1.5 seriously needs this!!

Xtypo is great really great plugging for someone with no content skills like my self!

Tool tips is my next must have

Thanks for your idea...

We will consider it!

It would be very nice to have an Joomla! 1.5 nativ version of this editors-xtd plugin for your xtypo.

<http://www.filmanleitungen.de>

So I doesn't need to remember the syntax of xtypo and just need to klick a button ;) :lol:

I wish someone from Template Piazza would address problems on this forum.

The most important feature seems to be a person who gives answers to support-questions like display-problems with IE6

and IE7 (see different postings in this Forums.

Many thanks for a quick realisation

Like Quote Xtypo, would be great if you add a "Question" Xtype also.

Thanks

It's a great plugin. Please make it work properly with IE.
