Hi Maribel:

The templates are generally released on/about the first of each month - so you can expect the next one in about a week.

What do you mean ??

Are you saying that you would like to see a "webmaster" template for a future release? If so, please do feel free to click on the blue link in my signature and contribute to the "What Do You Want To See" discussion.

yes Maribel,
Sorry Maribel and others member, coz there is no articles or several information about that the New Template at the
frontpage. But don't worry, that template has ready in download sections, just login with your account and find that. ;)

Best Regards

Hi Ahoy,

Maybe there (WEST BABYLON?) you dont usually pay for the services you get but all around the world you do it! ;)

So please if you think warez sites are better try to get support there!

We will add this information as soon as possible.

Regards,

Hey Ahoy . . .

You say that you "LOL" ... but what has the rest of us "ROFL" at you is that in your failed attempt to be clever, you just identifying yourself as someone who advocates and perpetuates intellectual property piracy. Way to go, genius.

:laugh:

Oh, and as Ricardo very aptly indicated above - good luck on trying to get the kind of support you need for TP templates on the warez sites. Most of them can't handle tasks beyond clicking a "download" button.

Andrias:

I already replied to this in the other thread in which you posted the same question. The May 2008 template release is PropertyPlazza and it has already been released.
