
Preview of the next template?

Posted by DAVID BLAZIER - 2008/04/30 10:23

I woke up this morning and realized it's the end of the month and time to start daydreaming about the next new TemplatePlazza template!!!

Since I've never been the type to wait for the surprise (...I've ALWAYS found my Christmas gifts...), I just gotta know: WHAT IS THE NEXT TEMPLATE GOING TO BE???

It's going to be hard for you guys to top the Classifieds template, but I'm sure you can do it!

Come on...won'tcha just give us a peek???

Shame on you for finding your Christmas gifts early and ruining the magic of Santa Claus. Just for that, you get coal in your stocking and are going to have to wait at least one more day for the next template release. ;)

Rest assured through, I think you're going to really enjoy it. Some great functionality that can not only be used for the general theme of the template itself, but (with a little ingenuity and creativity) can be modified to serve a variety of areas . . . as it is with most TemplatePlazza offerings. It's truly a state of the art offering.

Oh, one new template is released. This is Property Plaza. You can read this template in Home of TP. And TP release New Extension.
