
Article Specific..

Posted by Colin - 2008/05/11 12:33

Is it possible have a Mini Frontpage mod that is article specific?

Do you mean you can choose specific content item id to be shown up? Need a little more 'hack' to get that feature.

But you will find it on some place, a module that work like this plus one more option that already implemented in minifp. Just wait and see...;)
