
Multiple thumb images

Posted by Cielo - 2008/05/15 14:57

Hi there, I was wondering if it's possible to have multiple thumb images to display in the module and not only 2 as it is now?

Hi cielo,

yes it's possible :)

Simply go to your minifrontpage backend and change the parameters below into :

Number of Articles to display : 10

Number of Introtex / Hide Introtex : 10
