I think it looks nice and crisp/clean.

Sharp integration of Fireboard and Ads Manager.

One bit of constructive criticism I might offer ... and this is just my own opinion, mind you ... would be to, perhaps, not use "Mr. Smiley Face" in your user login box. To me, it detracts (or makes a bit cartoonish) an otherwise sharp social networking site.

Again, just my own personal opinion.
Overall - very nice work thus far.
