
Great Templates - Great Support

Posted by Richard Stoffiere - 2008/06/27 06:56

I have been a TP Club Member for a while now. When I first started developing in Joomla, like most newbies I ran to the free template sites. I quickly found that I got what I paid for. I stumbled upon TP from a Google search, and I am sure glad I did. The templates are not only beautiful, but they are JAM PACKED with module positions and other goodies. The support has been great as well.

If you are looking to seriously get into Joomla, don't waste your time anywhere else. Spend the money on a club membership and go away happy!

Thanks TemplatePlazza!!!!
