## xTypo round type error

Posted by Dante - 2008/07/06 02:12

---

Hi,  
I get strange appearance using round type box. See here  
<http://img363.imageshack.us/my.php?image=typoerrorkd7.gif> for IE7  
and here  
<http://img157.imageshack.us/my.php?image=typoerror2wa7.gif> for Mozilla.  
Please note that the page is exactly the same and I put the code copying it from the examples.  
Any help?  
Thanks a lot in advance  
Dante

I know, it's free stuff support, but what's it's for if nobody even read it?  
Thanks all the same.

Hello Dante,  
we are really sorry to late reply your thread

until this time, i'm still can't find the trouble like that, so i can't try to find the way to solve that.

what about if you share your live site url, please?

Regards
