## jootabs in joomla 1.5.4 not function

Posted by sergio - 2008/07/16 10:04

---

Hello friends, i'm instal the jootabs in joomla 1.5.4 , the template is not templateplzza , , but i insert the tab1 , in user9 , but not result info in tab.

Any idea, , is the put {tabcontebt} in the module???
